

Auli'i Cravalho - How Far I'll Go

```
I know, everybody on this island seems so happy on this island
                 tom:
                                                                     Everything is by design
                 F
        [Primeira Parte]
                                                                                                  Ghm
                                                                                                                                 Dhm
                                                                     I know, everybody on this island has a role on this island
I've been staring at the edge of the water
                                                                     So maybe I can roll with mine
                  Dbm
'Long as I can remember, never really knowing why
                                                                     [Pré-Refrão 2]
I wish I could be the perfect daughter
                                                                     I can lead with pride, I can make us strong
                        Dbm
But I come back to the water, no matter how hard I try
                                                                     I'll be satisfied if I play along
[Pré-Refrão 1]
                                                                     But the voice inside sings a different song
       Dbm
                                                                     What is wrong with me?
Every turn I take, every trail I track
                                                                     [Refrão 2]
Every path I make, every road leads back
To the place I know, where I cannot go
                                                                     See the light as it shines on the sea? It's blinding
                                                                                  Dbm
Where I long to be
                                                                     But no one knows, how deep it goes
[Refrão 1]
                                                                     And it seems like it's calling out to me, so come find me
                                                                                 Dbm
                                                                     And let me know, what's beyond that line, will I cross that
See the line where the sky meets the sea? It calls me
                                                                     line?
And no one knows, how far it goes
                                                                     [Refrão A]
If the wind in my sail on the sea stays behind me
                                                                     See the line where the sky meets the sea? It calls me
                         \mathsf{Am}
One day I'll know, if I go there's just no telling how far
                                                                     And no one knows, how far it goes
I'll ao
                                                                     If the wind in my sail on the sea stays behind me
[Segunda Parte]
                                                                                    Dm Dm
                                                                     One day I'll know,
                                                                                               how far I'll go
                             Gbm
                                                                Dbm
