Aurora - Conqueror
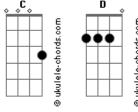

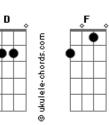

Tom: C
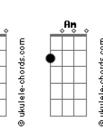

```
     C                D
Broken mornings, broken nights
F                C
And broken days in between
C               D
Open ground, the sky is open
F           C
Makes an open sea

Just like in fiction, in every addiction
Oh fantasy's taking over, awake me

C                         D
I've been looking for the conqueror
         F                    C
But you don't seem to come my way
C                         D
I've been looking for the only one
         F                    C
But you don't seem to come my way

C             D
Broken me and broken them
F             C
You are broken too
C               D
Open ears, their eyes are open
F               C
Makes me call for you

Am                        F
But there's no seduction only destruction
Am                  F
Oh fantasy take me over and break me

C                         D
I've been looking for the conqueror
```

```
              F                    C
But you don't seem to come my way
C                         D
I've been looking for the only one
         F                    C
But you don't seem to come my way

C                         D
I've been looking for the conqueror
         F                    C
But you don't seem to come my way
C                         D
I've been looking for the only one
              F                    C
But you don't seem to come my way

And I feel ali-li-live
I feel ali-li-live
I feel ali-li-live
I feel ali-li-live

C                         D
I've been looking for the conqueror
         F                    C
But you don't seem to come my way
C                         D
I've been looking for the only one
              F                    C
But you don't seem to come my way

C                         D
I've been looking for the conqueror
         F                    C
But you don't seem to come my way
C                         D
I've been looking for the only one
              F                    C
But you don't seem to come my way
