

# Aurora - Dreams

tom:  
 I've needed so much, with nothing to touch  
 Floating from earth  
 Another bridge burned, a mother concerned  
 Come back to the world  
 In my dreams  
 Everything's more quiet than here  
 In my dreams  
 Everything I feel disappears  
 ( Em Bm Am G )  
 The night became new and out of it grew  
 A hymn of the pearl  
 Don't lie to yourself, don't lie to the world  
 Don't lie to a girl  
 When your shadows were forgiven, I abandoned your religion

And I knew that I would never come back  
 So tired and so aimless, I travelled through the darkness  
 So my path would be impossible to track  
 In my dreams  
 Everything's more quiet than here  
 In my dreams  
 Everything I feel disappears  
 ( Em Bm A G )  
 ( Em Bm A G )  
 Learn my body and my poems  
 And repeat them like you own them  
 Like the arrow and the willow, we all bend  
 Let the mothers and the daughters climb out of the waters  
 Like the needle and the cockroach, we mend  
 In my dreams  
 Everything's more quiet than here
