

# Aurora - Heaven (Unreleased)

tom:

**Eb** (forma dos acordes no tom de **A** )

Capostrate na 6ª casa

You've been calling my name  
 Laying light on my mistakes  
 I've been caught in my room Writing symphonies in blue

And I felt the kick inside  
 It made an echo in my heart

I've been trying all my life  
 To find this missing part

I never saw you come out of your house with a halo

But I believe in you  
 Even though you are not an angel and you preach for love  
 But the promise you keep, keeps on breaking

But I believe in you  
 Cause there's nothing I want  
 More than heaven

Be my heaven  
 Soft and silent  
 Smooth and violent

Like a human
