

Aurora - Midas Touch

```
[Segunda Parte]
                             tom:
                                                                 Do you remember how I loved you

Ebm7 E A Ab7

You would make your lovers into sculptures
Intro: [Tab - Riff]

I can remember I was dreaming

In the moonlight gently I was floating
                                                                 Dbm
 I didn't know that I was sinking
                                                                  Midas, my dear, no wonder why you're scared

In my lonely
                bed sheets I was dying
                                                                 You're a king among the thieves
                                                                          Ab7
[Pré-Refrão]
                                                                 And your world belongs to me
                                                                 [Refrão Final]
When you're away I think that I'll escape
         Ebm7
You're a king but you're a slave
                                                                 I would watch you fall in love
     Ab7
This love will end today
                                                                 But you love me like a kid
                                                                 You needed someone close

I would watch you fall in love
                                                                 I'd find you on your knees
But you love me like a kid
                                                                 And you'd beg for me to be
You needed someone close
