 Second verse goes the same as the first one.
 Don't the water grow the trees
 Don't the moon pull the tide
 Don't the stars light the sky
 Like you need to light my life
 We can do anything we life
 I know we both can get it right tonight
 You got your walls built up high

I can tell by looking in your eyes
 You don't understand how much you really mean to me
 I need you in my life
 You're my necessity
 But believe me that you're everything
 That just makes my world complete
 And my love is clear the only thing I've ever seen
 You're all I ever need
 Baby you're amazing
 You're my angel come and save me
 You're all I ever need
 Baby you're amazing
 You're my angel come and save me
G When it comes to you baby I'm addicted **Dadd4#**
 You're like a drug, no rehab can fix it
Em I think you're perfect baby even with your flaws **C**
 You ask what I like about you
 Ooh, I love it all
G When it comes to you Baby I'm addicted **Dadd4#**
 You're like a drug, no rehab can fix it
Em I think you're perfect even with your flaws **C**
 You ask what I like about you
 Ooh, I love it all
G You're all I ever need **Dadd4#**
Em Baby you're amazing
C You're my angel come and save me
G You're all I ever need **Dadd4#**
Em Baby you're amazing
C You're my angel come and save me
 You're all I ever need
 Baby you're amazing
 You're my angel come and save me
