

Austin Mahone - Places

Tom: C

She know it, she know it

Yeah, yeah, she know it
She know it, she know it (2x)

Yeah, yeah, she know it

Places whilst confirmation just to see my girl (to see my girl)

A million different faces

So many beautiful girls I've seen around the world (Yeah but they ain't my girl no)

You know this situation

We drop it all now and pack your bags and comes to me (Come to me)

You know that I'll be waiting

Cause I'm dying for your company

Got you screaming out, oh woah, oh woah (ahh ahh ahh)

Got you screaming out, oh woah, oh woah (ahh ahh ahh)

Cuz she knows that she's all in my head

And I can't lie cause we both know that it's true

And she knows I'm impressed

By the way what she doesn't what she do

By the way what she doesn't what she do

By the way what she doesn't what she do

Patience, girl I know I've been gone I've been on the road (But i'm coming in home)

I know that you've been waiting

Stuck in a small town and you're feeling all alone (I won't be too alone no)

You're going through these phases

Hold it down girl cause you know I'll come for you (I'll come for you)

I know you've been frustrated

Give me time, I swear we'll make it through (I swear it's true)

Got you screaming out, oh woah, oh woah (ahh ahh ahh)

Got you screaming out, oh woah, oh woah (ahh ahh ahh)

Cuz she knows that she's all in my head

And I can't lie cause we both know that it's true

And she knows I'm impressed

By the way what she doesn't what she do

By the way what she doesn't what she do

By the way what she doesn't what she do

And she know, know, know, know

Because she know, know, know, know

Cause she know, know, know

Cause she know, know, know

Cause she know, know, know

Cause she know, know
