

Avantasia - Draconian Love

```
Tom: C
Intro: 2x:
Dm Am G
       You shed draconian love
       You shed draconian
(Dm Am G)(2x)
Welcome to your way
Seemingly endless
As I take your wings
  Dm
The world through
caleidoscope eyes
Untill you unlearn
What you keep inside
Those innocent eyes
Refracting the light
For a never-sang song
       Dm
Till the cold horizon
Gonna wait its turn
Wait its turn no more
Tell me how should I
embrace
Like roses we'll wither on
the vine
            F
Why should I bide my time
    G
                            (G Gb E)
If it flies away sometime
Where are you now?
Where are you now?
          \mathsf{Am}
Leaving me down here
Lost in the waves
     Em
Hey, hey, hey
When will God explain
This Draconian love
You shed draconian love
You shed draconian love
Where do I go?
Where are you now?
     Am
Selling me love
Through fiery rain, Angel
Em B
When will you explain this
Draconian love
It's all Draconian love
It's all Draconian
Infiltrators with mercy
           G
Bait us with sympathy
Lying as we love
     Dm
We're lost in the clouds
```

```
walking by
But some of us rain
Into what they feel
Like a grain of nothing
I feel cast to the wind
Of a feeling good breeze
Of an onward cause
Of an unborn will
Whatever that may mean
Tell me how should I
embrace
Like roses we'll wither on
the vine
Tell me why should I bide my time
    G
If it flies away sometime
Where are you now?
Where are you now?
          Αm
Leaving me down here
Lost in the waves
      Em
Hey, hey, hey
When will God explain
This Draconian love
You shed draconian love
You shed draconian love
Where do I go?
Where are you now?
         Am
Selling me love
Through fiery rain, Angel
Em B
When will you explain this
Draconian love
It's all Draconian love
It's all Draconian
Aspiration and tears
           G
Heartache and fears
Draconian love
You shed draconian love
          Am
Unrequited love
Down on my knees
       Ğ
Draconian love
It's all draconian
Solo: ( Dm C G Dm Am C G )
Where are you now?
Where are you now?
Leaving me down here
Lost in the waves?
Will you explain
This draconian love?
```
