

Avenged Sevenfold - Gunslinger

Tom: C

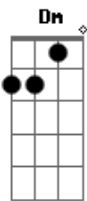

Yeah, you've been alone
 I've been gone for far too long
 But with all that we've been through
 After all this time I'm coming home to you.
 Never let it show
 The pain I've grown to know
 Cause with all these things we do
 It don't matter when I'm coming home to you
 I reach towards the sky I've said my goodbyes
 My heart's always with you now
 I won't question why so many have died
 My prayers have made it through yeah
 Cause with all these things we do
 It don't matter when I'm coming home to you
 Letters keep me warm
 Helped me through the storm
 But with all that we've been through
 After all this time I'm coming home to you
 [Refrão]
 I reach towards the sky I've said my goodbyes
 My heart's always with you now

I won't question why so many have died
 My prayers have made it through yeah
 Cause with all these things we do
 It don't matter when I'm coming home to you
 I've always been true
 I've waited so long just to come hold you
 I'm making it through
 It's been far too long, we've proven our
 Love over time's so strong, in all that we do
 Pré-Solo:
 The stars in the night
 they lend me their light
 To bring me closer to heaven with you
 [Solo]
 But with all that we've been through
 After all this time I'm coming home to you
 [Refrão]
 I reach towards the sky I've said my goodbyes
 My heart's always with you now
 I won't question why so many have died
 My prayers have made it through yeah
 Cause with all these things we do
 It don't matter when I'm coming home to you
