Avicii - Can't Catch Me

Tom: G
Intro: Em D G C G D
      Em D G C D

```
Em              D         G         C
Papa, he was gone tryna make a dime
              G           D          Em
Mama kept us warm when there was no sunshine
                 D G  C
I was busy building up a reputation
          D              Em
Did a lot of things out of desperation
                D        G   C
Back up on my feet, got the motivation
               G            D   Em
Now I found my faith and a good vibration
```

(Em D G C G D)
(Em D G C D)

```
           Em              D
Search for you, lover, creation
G                    C                            G            D
When you're feeling down in this place, just replace them
        Em                       D   G
Keep a vision on the one you've been chasing
              C                       D
When the time comes we'll run to the station
              Em                      D G
We've been laced with the powers of creation
           C                    G        D
So when the sun sets, you bet you must face them
              Em                   D G
Remember when we were running 'cross the nation
           C                    D
We were living for the here and now
```

```
          Em    G
You can't catch me
            C                    D
I'll be gone by the time they come
            Em    G
You can't catch me
        C                 D
The war is already won
                Em                   G
Even though the children have sold their guns
           C              D
We must remember the fallen ones
Em                        G     C   D
Remember the fallen ones
```

[Solo]

```
Em              D         G         C
Raised in the capital of Port-au-Prince
              G             D   Em
Born with them pillars and them tenements
                 D        G   C
Papa used to run from the immigration
              D              Em
When we got to the United Station
              D            G       C
A teen under pressure, had to blend in
           G            D   Em
Before the guitar I had to back in
```

(Em D G C G D)
(Em D G C D)

```
           Em              D
Thanks for you, lover, creation
G                    C                            G            D
When you're feeling down in this place, just replace them
        Em                       D   G
Keep a vision on the one you've been chasing
              C                       D
When the time comes we'll run to the station
              Em                      D G
We've been laced with the powers of creation
           C                    G        D
So when the sun sets, you bet you must face them
              Em                   D G
Remember when we were running 'cross the nation
           C                    D
We were living for the here and now
```

```
          Em    G
You can't catch me
            C                    D
I'll be gone by the time they come
            Em    G
You can't catch me
        C                 D
The war is already won
                Em                   G
Even though the children have sold their guns
           C              D
We must remember the fallen ones
Em                        G     C   D
Remember the fallen ones
```
