

## **Avril Lavigne - Breakaway**

```
Tom: C
                                                              Wanna feel the warm breeze
Am
E | --0-----|
                                                               Sleep under a palm tree
В і - - - - і
                                                               Feel the rush of the ocean
                                                              Get onboard a fast train
                                                              Travel on a jetplane
                                                              Am G F
                                                              Am G .
Far away
G|- 5-5-5-7-5--9-9-9--7--5-5-7-7-5-4-5
D|- 5-5-5-5-9-9-9-9-7--5-5
                                                              And break away
Da da da n da da, Da da da n da da, aaa...
Am G F (2x)
                                                               I'll spread my wings and I'll learn how to fly.
Da da da n da da da, aaa..
                                                               I'll do what it takes till I touch the sky.
(verse)
           G
                                                              Make a wish, take a chance,
                                                                                 Am G F
Grew up in a small town
                                                              Make a change, and break away
And when the rain would fall down
                                                               Out of the darkness and into the sun.
Am G
I'd just stare out my window
                                                              But I won't forget all the ones that I love.
Dreaming of what could be
                                                               I'll take a risk, take a chance,
And if I'd end up happy
Am G F
                                                                                 Am G F
                                                              Make a change, and break away
I would pray
                                                               (bridge)
                                                               Buildings with a hundred floors
Trying hard to reach_out
But when I tried to speak out
                                                               Swinging with revolving doors
Am G F
Felt like no one could hear me
                                                              Maybe I don't know where they'll take me
Am G
                                                                              С
Wanted to belong here
                                                              Gotta keep movin on movin on
But something felt so wrong here
                                                               Fly away
So I'd pray
                                                               Break away
              D F G
Am G
I could break away
                                                               I'll spread my wings and I'll learn how to fly.
I'll spread my wings and I'll learn how to fly.
                                                               Though it's not easy to tell you goodbye
I'll do what it takes till I touch the sky.
                                                              Make a wish, take a chance,
                                                                                 Am G F
                                                              Make a change, and break away.
Make a wish, take a chance,
Make a change, and break away.
                                                              Out of the darkness and into the sun.
Out of the darkness and into the sun.
                                                               But I won't forget the place I come from
                                                                C
But I won't forget all the ones that I love.
                                                              I gotta take a risk, take a chance,
I'll take a risk, take a chance,
                                                              Make a change, and break away
                                                              Am G F
                                                              Break away
Make a change, and break away
(intro 2x)
                                                              Break away
                                                               ( F )
(verse)
```

## **Acordes**
