

Awfultune - I'm Too In My Head

tom:

Intro: G F Am D

[Primeira Parte]

I wish you could see
Yourself in the mirror
With a boy
A boy like me
I wish you didn't get so angry, angry
And hate, hate
What you see

[Refrão]

Oh, and I'm too in my head
So I'm sorry for the way things went
And I know that anything I say
Couldn't take those many problems away
And I'm too in my head
So I'm sorry if this makes no sense
But the doors still open if you want to take another chance

[Segunda Parte]

I wish that we weren't miles away
I'm acting like I don't care

But I can't let it go
I told my mom about you
And I don't know why, why
Cause every guy that I do
Ends up leaving me
But please don't let it be you
[Refrão]

I'm too in my head
So I'm sorry for the way things went
And I know that anything I say
Couldn't take those many problems away
And I'm too in my head
So I'm sorry if this makes no sense
But the doors still open if you want to take another chance
I'm too in my head
So I'm sorry for the way things went
And I know that anything I say
Couldn't take your many problems away
And I'm too in my head
So I'm sorry if this makes no sense
The doors still open if you want to take another chance
