

Awfultune - Lvr Boy

tom:

Intro: C Am F Fm

I used to get on my knees

And I'd pray for love

To come find me someday

For love to come meet me my way

Your love hit like a brick to the face

And when I put up a fight

You put me back in my place

I thought I wasn't cut out for this race

You know how I feel

You don't need a song

But just in case

[Refrão]

You're my lover boy

My stay in bed under the cover boy

My only you and no other boy

My face is red come smother me boy

Cause you're my lover boy

Come on and meet my mother boy

You made me a lil tougher boy

My life was black and white

But now I see color boy

You're my lover boy

[Segunda Parte]

I used to find things about me

That were wrong to me

But then you came along

And showed me

Showed me where I was wrong

So thank you

Acordes

Cause I'm where I belong

In a world where I finally feel strong

I got my boy and he can tag along

You know how I feel

You don't need a song

But just in case

[Refrão]

You're my lover boy

My stay in bed under the cover boy

My only you and no other boy

My face is red come smother me boy

Cause you're my lover boy

Come on and meet my mother boy

You made me a lil tougher boy

My life was black and white

But now I see color boy

You're my lover boy

[Terceira Parte]

You own my heart

You own my heart like no one else's

You own my heart

You own my heart like no one else's

I fall apart

And when I fall apart I'm no one else's

You own my heart

You own my heart like no one else has

I can be your baby

I could be your baby

I'm always your baby

Always yours
