

# Bad Religion - Come Join Us

Tom: G

G D E E E E  
All we want to do is change your mind

G D B  
All you need to do is close your eyes

E C  
Come join us

E G D  
Come join us

E C B  
Come join us

(w/ Rhythm 1)

Don't you see all the trouble that most people are in  
And that they just want you for their own advantage  
But I swear to you we're different from all of them  
Come join us

I can tell you were looking for a way to live  
Where truth is determined by consensus  
Full of codified arbitrary directives  
Come join us

G D E E E E  
All we want to have is your small mind

G D B  
Turn it into one of our kind

E C

You can go through life adrift and alone

G D  
Desperate, desolate, on your own

E C B  
But we're looking for a few more stalwert clones

E C  
Come join us

E G D  
Come join us

E C D  
Come join us

(w/ Rhythm 1)

We've got spite and dedication as a vehement brew  
The world hates us, well we hate them too  
But you're exempted of course if you  
Come join us

Intellectual, brave, strong, and scholarly  
If you're not one of them, you're us already

E C  
Come join us

E G D  
Come join us

E C D  
Come join us
