Tune your guitar down 1/2 a step
Intro: (x4)

Verse 1
"I had a dream..."

Verse 2
"Sometimes we strive..."

Solo on guitar 1

During solo, guitar 2 plays

Verse 3
"I had a dream..."

I'm sure this tab is just about correct, but at some parts, the guitar doesn't play the chords, just notes from the chords, but how I've written sounds good anyway.

The lyrics

I had a dream of unity
Where we would walk side by side
But today I see that its only me
Just tryin' to get by

Sometimes we strive undeterred
To walk as one toward our goals
But as people stray toward more selfish ways
We see we have no control

I had a dream of unity
Where we would walk side by side
But today I see that its only me
Just tryin' to get by
Just tryin' to get by
