Verse 2 "Sometimes we strive..."

Solo on guitar 1

During solo, guitar 2 plays

Acordes

Verse 3
"I had a dream..."

I'm sure this tab is just about correct, but at some parts, the guitar doesn't play the chords, just notes from the chords, but how I've written sounds good anyway.

The lyrics

I had a dream of unity Where we would walk side by side But today I see that its only me Just tryin' to get by

Sometimes we strive undeterred To walk as one toward our goals But as people stray toward more selfish ways We see we have no control

I had a dream of unity Where we would walk side by side But today I see that its only me Just tryin' to get by Just tryin' to get by
