```
E            B        C           D
I love my computer you make me feel alright
E            B        C         D
every waking hour and every lonely night
E            B        C            D
I love my computer for all you give to me
  E          B        C        D
predictable errors and no identity

       C                  B
And it's never been quite so easy
     C                B
I've never been quite so happy

Chorus:
E          D        C
All I need to do is click on you
   G                          A
And we'll be joined in the most soul-less way
    E               D        C
And we'll never ever ruin each other's day
   G                       A       B
Cuz when I'm through I just click and you just go away
