

Bad Religion - Sowing The Seeds Of Utopia

Tom: **G**

(**C G D**)
 We all know politicians only go
 Just halfway there
 Just halfway there
 The innocence of youth needs protection not abuse
 But no one seems to care
 Yet no one seems to care

(**Em C G D**)
 And you sit there and watch the world go around

While we who've been left to pick up after you
Em C D C G D
 Try our best to make some sense for those who come next

(**C G D**) (3x)

(**C G D**)
 Now what have you done to foster the truth
 Besides just hide the lies?

Besides just hide the lies?
 A selfish campaign never justifies the gain
 But the means are verified
 Yeah the means are verified

(**Em C G D**)
 And you sit there and insist you are right!
 From your popular psychological podium
 While those who rely and depend on you
Em C D C G D
 They wilt because you don't accept we need each other

(**C G D**) (7x)

(**Em C G D**)
 While sowing the seeds of Utopia
 You invoked a convenient amnesia
Em C Em C
 You forgot how to care, you forgot how to provide
Em C D G
 You forgot how to work toward a meaningful life
