

Bad Religion - Wont Somebody

Tom: G

Chorus1:

Em C G Am
 Won't somebody please come up with something?
 Em C G Am
 'Cuz Jesus just don't seem to be impartially working
 Em C G Am
 And all the rest are really down in the ratings
 C G D
 While everyone is right here waiting

Versel:

Em
 Out in the cold
 G
 Like a bundle of coal
 Am
 Little packets of darkness
 D B
 Wanting to grow
 Em
 Well there's nobody home
 G
 And there's a wreck in the yard
 Am
 And maybe they're coming back
 D B
 If we wish really hard, if we wish real hard, now

Chorus2:

Won't somebody please come up with something?
 'Cuz Jesus just don't seem to be impartially working
 And all the rest are really down in the ratings
 But everyone is gonna keep on waiting

Verse2:

Waiting for peace
 At the end of our streets
 Back behind our apartments
 In our passenger seats
 Just a moment of bliss
 Amid all of the waste
 But despair and oblivion
 Of our precarious race
 Its ours to face, now

Chorus3:

Won't somebody please come up with something?
 'Cuz Jesus just don't seem to be impartially working
 And all of the rest are really down in the ratings
 But everyone is still right here waiting

Break:

C G
 Now I know nothing lasts forever
 C
 So we might as well wish for a goddam fix
 D B
 Of this dark, sick, changing weather

Then goes:

Em C G D (2x)

Chorus4:

Won't somebody please come up with something?
 'Cuz Jesus just don't seem to be impartially working
 And all of the others can barely stand in their running
 But everyone is gonna keep on waiting
