

Bahsi - Bubble Gun

tom:

Intro: Am D7 G

Yeah we're lost and far away

But I'd like to see you
Every time you're close to me

There's something I can't explain
It's been a while since the bubble gun

But I'd like to see you

Every line you wrote to me
Made me blow away

Yeah we're lost and far away
But I'd like to see you

Every time you're on the way

I know I won't forget
There's something I can't explain

Every time you're close to me

Yeah we're lost and far away
But I'd like to see you

Every time you're close to me

There's something I can't explain

It's been a while since the bubble gun
But I'd like to see you

Every line you wrote to me
Made me blow away

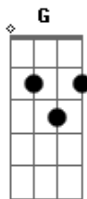

Yeah we're lost and far away
But I'd like to see you

Every time you're on the way

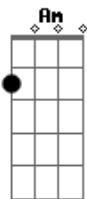

I know I won't forget
There's something I can't explain

Every time you're close to me
