

# Bambie Thug - Love Bites

tom:  
G  
Love bites  
D  
Love bruised  
Em C  
A love vacancy I wasted on you

G  
Yeah love bites  
D  
And love chews  
Em C  
It spits you out all twisted up a myth and muse

G D  
Its a blood red sky  
Em  
A kiss of the damned play the wrong hand  
C  
No lovers left alive  
G D  
Mourning moves in my mind  
Em  
Babe what you said raised from the dead  
C  
My heart opened wide

G D  
What we did in the shadows  
Em C  
Felt so innocent  
G D  
The underworlds unravelled  
Em C  
I swore I let the right one in

But love bites again

G  
Love bites  
D  
Love breaks  
Em  
Love steals from you  
C

It loves to take  
G  
My cold love  
D  
Coloured blue  
Em  
If I could take just one more bite  
C  
One sweet taste of you

G D  
Its a blood red sky  
Em  
Play in the dark

Playing with a heart  
C  
And praying you'll survive  
G D  
Move my mind  
Em  
Babe what you said  
C  
Playing in my head Im bleeding out alive

G D  
What we did in the shadows  
Em C  
Baby I was innocent  
G D  
The underworlds unravelled  
Em  
Could I let you in again  
C  
Im innocent, Im innocent

G D  
What we did in the shadows  
Em C  
It felt so innocent  
G D  
The underworlds unravelled  
Em C  
I swore I let the right one in  
G  
But love bites again
