

## Bambie Thug - Love Bites

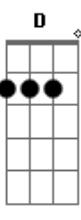

tom:  
 G  
 Love bites  
 D  
 Love bruised  
 Em C  
 A love vacancy I wasted on you  
  
 G  
 Yeah love bites  
 D  
 And love chews  
 Em C  
 It spits you out all twisted up a myth and muse  
  
 G D  
 Its a blood red sky  
 Em  
 A kiss of the damned play the wrong hand  
 C  
 No lovers left alive  
 G D  
 Mourning moves in my mind  
 Em  
 Babe what you said raised from the dead  
 C  
 My heart opened wide  
  
 G D  
 What we did in the shadows  
 Em C  
 Felt so innocent  
 G D  
 The underworlds unravelled  
 Em C  
 I swore I let the right one in  
  
 But love bites again  
  
 G  
 Love bites  
 D  
 Love breaks  
 Em  
 Love steals from you  
 C

It loves to take  
 G  
 My cold love  
 D  
 Coloured blue  
 Em  
 If I could take just one more bite  
 C  
 One sweet taste of you  
  
 G D  
 Its a blood red sky  
 Em  
 Play in the dark  
  
 Playing with a heart  
 C  
 And praying you'll survive  
 G D  
 Move my mind  
 Em  
 Babe what you said  
 C  
 Playing in my head Im bleeding out alive  
  
 G D  
 What we did in the shadows  
 Em C  
 Baby I was innocent  
 G D  
 The underworlds unravelled  
 Em  
 Could I let you in again  
 C  
 Im innocent, Im innocent  
  
 G D  
 What we did in the shadows  
 Em C  
 It felt so innocent  
 G D  
 The underworlds unravelled  
 Em C  
 I swore I let the right on in  
 G  
 But love bites again
