Intro: Em

[Primeira Parte]

Every time I see you, I lose my way
Caught in your shadow, I'm led astray

A tangled web that I can't unwind
The closer I get, the less I find

[Pré-Refrão]

The more I know you, the less I care
The less I want to meet you there
I didn't see that you meant for me
Poison, not the remedy

[Refrão]

It's an endless rollercoaster, up and down
Spinning circles till I'm breaking, breaking down
The higher I climb, the harder I hit the ground
Don't wanna know you at all

[Segunda Parte]

When I try to leave it, you make me stay
It's like a trap I just can't escape

What you keep from me, I see in your eyes
But now I'm the ghost you left behind

[Pré-Refrão]

The more I know you, the less I care
The less I want to meet you there
I didn't see that you meant for me
Poison, not the remedy

[Refrão]

It's an endless rollercoaster, up and down
Spinning circles till I'm breaking, breaking down
The higher I climb, the harder I hit the ground
Don't wanna know you at all
