

Bastille - Skulls

```
Tom: Db
      Ab
                   Gb
  Bhm
   I came here for sanctuary
Away from the winds and the sounds of the city
    Ab Gb
 I came here to get some peace
          Ab
Way down deep where the shadows are heavy
I can't help but think of you
                 Ab
In these four walls my thoughts seem to wander
Bbm Ab
             Gb
To some distant century
When everyone we know is six feet under
When all of our friends are dead and just a memory
                          Gb
And we're side by side it's always been just you and me
    Gb
 For all to see
                 Bbm Ab
When our lives are over and all that remains
                  Bbm
                            Ab
Are our skulls and bones let's take it to the grave
    Gb
                       Bhm
And hold me in your arms, hold me in your arms
  Ab Gb
I'll be buried here with you
           Bbm Ab
     Gb
And I'll hold in these hands all that remains
    Ab
                Gb
  I don't want to rest in peace
         Ab
I'd rather be the ghost that annoys you
    Ab
                Gb
 I hope you can make me laugh
```

Six feet down when we're bored of each other

A match is our only light
