Battleme - Burn This Town

Tom: C

```
              C           G
Gonna burn the town
C           G
If you lie to me
C           F
Gonna set it off
Am          G
Oh, baby, I was blind to see

C           G
Talk me down
C           G
I'll find my wings
C           F
A big bad soul
Am          G
Some say that it's the end of me

F                         C         G
And I tell myself it's not following me
F                           C         G
Break me out of here, 'cause it's blinding me
F                         C     G
Lie to me, baby, don't you lie to me
F
Nothing's gonna change
        Am            G
If you wait to save me

( C   G   C   G )
```
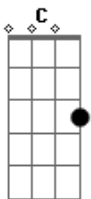

```
C           G
When the world is down
C           G
And fast asleep
C           F
They can't break us now
Am          g
Nobody's here for you or me

C           G
I'm half way gone
C           G
Don't want to be alone
C           F
I'll burn this town
Am          G
I'll find you if you want to be found

F                         C         G
And I tell myself they're not following me
F                           C     G
Break me out of here, coz it's blinding me
F                         C     G
Lie to me, baby, don't you lie to me
F
Nothing's gonna change
        Am            G
If you wait to save me

F
Nothing's gonna change if
    Am                    G
You can't, can't save me
```
