```
          F            G            Am
I needed you like the stars need the night
          F            G            Am
But you left me in the dark here to die
              F            G              Am
And we had something that money could never buy
          F            G            Am
But you ruined it with all your twisted lies.

F   G            Am                     Am
Bad bitches don't cry, we just get even, even
     F                  G           Am
So raise your fist Yeah raise 'em to the sky
                   Am
Baby keep on living living
      F                            G
And if there is one thing that I've ever learnt is
Am                                   Am
If you play with fire you're going to get burned
          F  G            Am
'cause bad bitches don't cry,
                         Am
Don't cry, don't cry, don't cry
     F (hold)
Don't cry.

          F            G            Am
I bet you thought I'd be nothing without you
```

```
      Am          F            G          Am   (stop)
Well you thought wrong 'cause baby I am bulletproof
                         F                        G
Yeah i push through the storm baby, push through the pain
                        Am
Dust myself off and stay in the game
Am          F                    G
Won't let you tell me, tell me I'm down,
            Am
I am the queen and this is my crown.
Am    F                   G
I am a fighter, I'm the igniter
                        Am

Am          F
I wanna thank you for
G                 Am          Am
Making me so much stronger.

          F   G            Am                     Am
Cause, Bad bitches don't cry, we just get even, even
     F                  G           Am
So raise your fist Yeah raise 'em to the sky
                   Am
Baby keep on living living
      F                            G
And if there is one thing that I've ever learnt is
Am                                   Am
If you play with fire you're going to get burned
          F    (hold)
'cause bad bitches don't cry,
Don't cry, don't cry, don't cry
