

Beeshop - Gizmo

tom: Em Intro: Em Cadd9 Dadd9 G We're always running from the brighter lights Dadd9 There's so much going on, so many things in our minds There's no escape, seems like we're running blind Dadd9 But, honey, how ridiculous was that? You're not a kid anymore, baby, what are you looking for? If we fall in love then we have got to kiss the ground Cadd9 It is the same as before We're always begging for more One day this will all crumble down But for the next two bars Dadd9 Cadd9 I'll be waiting for you to decide (yeah!) There won't be another way

Why don't we fall in love today What made you decide Cadd9 Dadd9 What made you believe your heart was wrong? There won't be another way Why don't we just quit playing games? We're both searching the same thing Dadd9 Cadd9 So why don't we kiss before I'm gone? And when you realize I'm not regular My teeth will be deep in your jugular Aadd9 You'll be one of us, and I'll be entirely yours Let's scare the shit out of those idiots! G Aadd9 D7 G And if there's fun, let's have some And if there's booze, let's drink some And if there"s love, let's make some It would be so awesome! There won't be another way We're playing games with my heart
