# Beeshop - I Was Born In The 80's

Tom: G
Intro: D Em C

Verso 1:
```
              D
I was just a boy
         Em                 C
Couldn't afford most of the toys
                             D
so we just hanged out in the streets
            Em                     C
'Girl, I don't dance, I just do the beats.'

                         D
Industrial neighborhood
        Em                 C
I lived my life the way I could
                             D
my house was all painted in green
        Em                 C
I can't forget most of the scenes
```

Ponte:
```
                      Em
because I'm getting old!
        D            C
I'm not a kid anymore
           Em
I'm getting old
        D            C ( C )
I'm not a kid anymore
```

Refrão:
```
                  G
I was born in the 80's
                      D
```

```
that's why I sing this song
                          Em7
my memories are faded
                          C
but they aren't gone
                          G
well I was born in the 80's
                      D
and I miss them too
                  Em7
I don't get totally crazy
                  C
only because of you

( D   Em   C )

                      D
I had a bike
            Em              C
I had a dog, his name was spike
                              D
we used to play ball all night long
            Em              C
we used to play hair metal songs
                      D
I bought a guitar
            Em              C
my tunes have taken me so far
                              D
I can't remember most of the nights
                Em              C
'cause of the vodka, lime and ice
```
