

# Belle And Sebastian - The boy with the arab strap

Tom: **D**

Fill#1

Intro: Fill#1 ( **G C G G** )

**G**  
A mile and a half on a bus takes a long time

The odour of old prison food takes a long time to pass you by

**G**  
Day upon day of this wandering gets you down

Nobody gives you a chance or a dollar in this old town

**G**  
Hovering silence from you is a giveaway

Squalor and smoke's not your style

"I don't like this place"

**C**  
We better go

**G**  
Then I compare notes with your older sister

**G G**  
I am a lazy gett, she is as pure as the cold driven snow

**G**  
What did you learn from your time in the solitary

Cell of your mind?

There was noises, distractions from anything good

And the old prison food

**G**  
Colour my life with the chaos of trouble

Cause anything's better than posh isolation

**C**  
I missed the bus

You were laid on your back

With the boy from the arab strap

With the boy from the arab strap

( **G C G C D C G** ) ( **G** )

**G**  
It's something to speak of the way you are feeling

To crowds there assembled

Do you ever feel you have gone too far?

**G**  
Everyone suffers in silence a burden

The man who drives minicabs down in Old Compton

**C**  
The Asian man

With his love hate affair

**D**  
With his racist clientele

**G**  
A central location for you is a must as you stagger about making free with your lewd and

**C**  
lascivious boasts

**G**  
We know you are soft cause we've all seen you dancing

We know you are hard cause we all saw you drinking from noon

Until noon again

**D**  
You're the boy with the filthy laugh

**G**  
You're the boy with the arab strap

( **G C** )

**G**  
Strapped to the table with suits from the shelter shop

**C**  
Comic celebrity takes a back seat as the cigarette catches

And sets off the smoke alarm

**G**  
What do you make of the cool set in London?

**C**  
You're constantly updating your hit parade of your ten biggest wanks

**D**  
She's a waitress and she's got style

**G**  
Sunday bathtime could take a while
