I've had a dollar to my name
I've had friends that walked away
                                                                                                                                                                                                                                                                      If I got Jesus

And I've even lost myself a time or two
There were bridges crossed and burned
                                                                                                                                                                                                                                                                      A joy that I could never hide
                                                                                 Em
But through all the wreckage, I have learned
                                                                                                                                                                                                                                                                      And a safe place to fall
 There is one thing that I can never lose
