                        tom:
                   G
Intro:  Bm   A

G          D              A          Bm
Give and you give and you give till its gone
            G          D            A        Bm
Then the people you fight hardest for say you're wrong
G                D           A          Bm
Before me flash all of my memories and days
             G      D           A        Bm
So don't stand insincere at the side of my grave

                 G
I will not be broken
          D     A
I won't be turned away
                      G
When it's too cold to breathe
          Bm        A
And too dark to pray
                Bm
I will not be broken

( Bm   A )

   G       D          A           Bm
I go too far then I go further still
         G       D              A           Bm
Time starts to collapse leaves a void none can fill
         G           D        A          Bm
Nothing you can say to hurt me with your forked tongue
G          D      A       Bm
Through bloodshot eyes I watch the world come undone
```

```

I won't be turned away

When it's too cold to breathe
          Bm        A
And too dark to pray
                     G
I've come too far to give up
         D           A
Or to be turned around
                    G
I will not be broken
          A       Bm
I will not go dow

[Solo] G  D  A  Bm

                    G

I won't be turned away
                      G
When it's too cold to breathe
          Bm        A
And too dark to pray
                     G
I've come too far to give up
         D           A
Or to be turned around
                    G
I will not be broken
          A       Bm
I will not go dow
