Ben Harper - In The Colors

Tom: D
Intro: D A Bm G

```
 D                  A                   Bm
When your whole world is shaken
                        G
from all the risks we have taken
  D               A              Abm G
dance with me, dance with me
                    D
into the colors of the dusk

 D                  A            Bm
When you have awoken
                    G
from all the dreams broken
  D               A              Abm G
dance with me, dance with me
                    D
into the colors of the dusk

 Em                       Gbm
the paths we're walking on
  G              A          Em
they crumble behind us
               Gbm                G
but if we leave now they will never
              A   G Gbm  Em
they will never find us
 F7                                    D
and if this crazy world spins itself
                F7
down to dust
```

```
i want to be with you
                    D
in the colors
```

Solo: D A Bm G

```
  D                  A            Bm
When you again start hoping
                     G
with your arms wide open
  D               A              Abm G
dance with me, dance with me
                    D
into the colors of the dusk

  D                  A            Bm
And all will be right
                           G
dancing like water with the light
 D               A              Abm G
dance with me, dance with me
                    D
into the colors of the dusk

D               A              Abm G
dance with me, dance with me
                    D
into the colors of the dusk

D               A              Abm G
dance with me, dance with me
                    D
into the colors of the dusk
```
