

Benjamin William Hastings - Still You

tom:
Intro: G Bm A D
[Primeira Parte]
Before I drew a single breath
Before the light had touched my skin
You formed me
Before I knew You even cared
And every moment since
You've always been for me

[Refrão]
It's still You that I want
It's still You that I want
Still You that I want
After everything
You're still my everything

[Segunda Parte]
Before I'd heard about the cross
You went to Calvary and beyond
To know me
From when I played the prodigal
To when I stumbled home
Your love came running

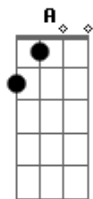

[Refrão 2]
It's still You that I want
It's still You that I want
Still You that I want
After everything
You're still my everything

[Interlúdio] Em G D A

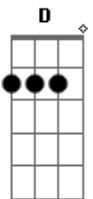

[Ponte]

It was You inside the desert
When I had nothing to eat
And it was You back in the fire
Saying "child you're safe with me?"
It was You who tamed the lions
Till they drifted off to sleep
And It was You that held the waters
So I barely wet my feet
It's Your heart that draws me closer
It's Your hand that's guiding me
And it's Your shoulder that I cry on
How those shoulders carried me
It's Your ways that I'm still learning
It's Your grace that I still need
And it's Your word I build my life on
It's the lamp unto my feet
It's Your stripes that bought my healing
It's Your death by which I'll rise
And if Your grave don't have a body
That means death ain't keeping mine
It's Your song I'll sing forever
Unencumbered there by time
Let angels ask me in a thousand years
Who my heart desires
After everything
You're still my everything
After everything
It's still You for me
