

Bethel Music - The Great Beyond (feat. Amanda Cook)

tom:

Intro: D Gbm A
[Primeira Parte]

In the silence, in the still
In the mystery revealed
You're the anchor I will cling to
Holy Spirit lead me on
You're the peace that overcomes
Take heart, have courage

[Refrão]

I lift my eyes up to the Heavens
I know Your love will break through
I fix my eyes on the horizon
I know Your love will break through

(D Gbm A)

[Segunda Parte]

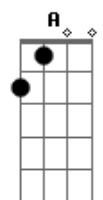

You're the whisper on the wind
A true and constant friend
Full of hope and quiet confidence
You're the voice that never sleeps
Always singing over me
Take heart, have courage
Take heart, have courage

[Refrão]

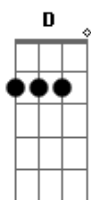

I lift my eyes up to the Heavens
I know Your love will break through
I fix my eyes on the horizon
I know Your love will break through

(Bm A Gbm)
(D E Gbm)
(Bm A Gbm E)

[Ponte]

I'm resting in the great beyond
What we know and what will come
'Cause You are a world without an end
And even in the great unknown
We have a hope, we have a home
'Cause You are a world without an end
I'm resting in the great beyond
What we know and what will come
'Cause You are a world without an end
And even in the great unknown
We have a hope, we have a home
'Cause You are a world without an end
Oh God, You are a world without an end

[Refrão]

I lift my eyes up to the Heavens
I know Your love will break through

(Oh-oh-oh-oh-oh-oh)

I fix my eyes on the horizon
I know Your love will break through
I lift my eyes up to the Heavens
I know Your love will break through
I fix my eyes on the horizon
I know Your love will break through

(You're breaking through)

Even when my heart is breaking
Even when my strength is failing
I know Your love will break through
And even in the darkest night
Hm
Even when I've lost the fight
I know Your love will break through
