

Beyoncé - He Still Loves Me (The Fighting Temptations)

```
Cause I ain't good enough
 Took me a while but I'm finally here
                                                             But He still loves me
Am G G Dm
So I just wanna testify, make it crystal clear
 F
See I've been picked out to be picked on
                                                               If you ain't worthy just raise your hands
                                                               And let me know that you understand
 Talked about, out my friends mouths
                                                               That we are all so blessed to be loved, loved
 I've been beat down 'til He turned my life around
                                                                                      Bb
                                                               Stand for him or fall for anything
                         G
 Seems like I always fall short of being worthy
                                                               Cause through his eyes we all look the same
   Cause I ain't good enough but He still loves me
                                                               What will we do without him?
 I ain't no superstar, the spotlight ain't shining on me
                                                                                       Ab

  I used to wake up somedays
                                                                                    Gb Db

And wish I'd stayed asleep
Cause I went to bed on top of the world
                                                             And I'm not perfect
 Today the world's on top of me
