

Beyoncé - Love Drought

Tom: **G**

[Verse]

G
Ten times out of nine, I know you're lying
D
But nine times outta ten, I know you're trying
Em
So I'm trying to be fair
C
And you're trying to be there and to care
G
And you're caught up in your permanent emotions
D
All the loving I've been giving goes unnoticed
Em
It's just floating in the air, lookie there
C
Are you aware you're my lifeline, are you tryna kill me
G
If I wasn't me, would you still feel me?
D
Like on my worst day? Or am I not thirsty, enough?
Em
I don't care about the lights or the beams
C
Spend my life in the dark for the sake of you and me

Only way to go is up, skin thick, too tough

[Chorus]

G
Cause you, you, you, you and me could move a mountain
D
You, you, you, you and me could calm a war down
Em
You, you, you, you and me could make it rain now
C
You, you, you, you and me could stop this love drought

[Verse 2]

G

Nine times out of ten, I'm in my feelings
D
But ten times out of nine, I'm only human
Em
Tell me, what did I do wrong?
C
Feel like that question has been posed
G
I'm movin' on
D
I'll always be committed, I been focused
Em
I always paid attention, been devoted
C
Tell me, what did I do wrong?
G
Oh, already asked that, my bad
D
But you my lifeline, think you tryna kill me?
Em
If I wasn't me, would you still feel me?
C
Like on my worst day? Or am I not thirsty, enough?
G
I don't care about the lights or the beams
D
Spend my life in the dark for the sake of you and me
Em
Only way to go is up, them old bitches so wack
C
I'm so tough, wassup?

[Chorus]
G
Cause you, you, you, you and me could move a mountain
D
You, you, you, you and me could calm a war down
Em
You, you, you, you and me could make it rain now
C
You, you, you, you and me would stop this love drought
