

## **Big Time Rush - Invisible**

```
Intro: D G D A
Do you ever wonder, when you listen to the thunder
And your world just feels so small
Put yourself on the line and time after time
Keep feeling inside like they don't know you're alive
Are you one of mine or just invisible
But I won't let you fall
I'll see you, through them all
And I just wanna let you know
Oh, when the lights go down in the city
You'll be right there shining bright
You're a star and the sky's the limit
And I'll be right by your side
Oh, you know, you're not invisible to me
Oh, you know, you're not gonna be invisible
Do you ever think of, what you're standing at the brink of
Feel like giving up, but you just can't walk away
And night after night, always trying to decide
Are you gonna speak out or get lost in the crowd
Do you take a chance or stay invisible
But I won't let you fall
I'll see you, through them all
And I just wanna let you know
```

Oh, when the lights go down in the city You'll be right there shining bright You're a star and the sky's the limit And I'll be right by your side Oh, you know, you're not invisible to me Oh, you know, you're not gonna be invisible Gotta look far, I'll be where you are I wish you could see what I see So don't ask why, just look inside Baby it's all you need And I don't understand why you won't (you won't) Take my hand and go Cause you're so beautiful And everytime that Oh, when the lights go down in the city You'll be right there shining bright You're a star and the sky's the limit And I'll be right by your side Oh, you know, you're not invisible to me Oh, you know, you're not gonna be invisible Oh, when the lights go down in the city You'll be right there shining bright You're a star and the sky's the limit And I'll be right by your side Oh, you know, you're not invisible to me

Oh, you know, you're not gonna be invisible
