

## **Big Time Rush - Show Me**

```
Tom: G
  Em
Guys like me,
Like girls like you
And girls like you
Like guys like me (You know)
I blaze the night
In harbor lights
You dressin' light
It's fittin' right
I hear the waves
I see you wave
I'm stayin' put
You say "no way"
The track begins,
You pull me in
I touch your skin
You're tremblin'
It's in your eyes
You're here to win
So let the game, game begin
IIII
          G
Wanna see you, you, you, you
Telling me
That, that
That you got what I need,
Do pretty girl, don't speak
Baby show me
By the way you hold me,
Way that you control me
Speed me up or slow me
Oh when I'm lonely
             G
Full o' stormy weather
Can you make it better?
I heard what you told me
So-o oh show me
Know what you want my number for!
Ain't talked enough
Let's talk some more
You kinda cute
Don't hit the mute,
Just aim and shoot
Or get the boot
IIII
Wanna see you, you, you, you
Telling me
```
