Big Time Rush - Stuck

Tom: C

```
Am      G                    C    F          Am
    Ohhoh Uhhohhou      Ohhoh Uhhohhou
G                        C    F
Ohhoh Uhhohhou

         Am                 G                    C  F
There was so many things that I never ever get to say
          Am              G                        C
Cause I'm always tounge tied with my words getting in the way
F
Am                 G
If you could read my mind
         C                         F
Then all your doubts would be left behind
        Am                      G          C  F
And every little thing would be falling into place

F                         C
And I would scream to the world
           G
They would see you're my girl

F                 Am     G
But I just keep getting stuck stuck
               C  F
But I'm never giving up up
            Am     G
In the middle of a perfect day
              C       F
I'm tripping over words to say
Am                 G
Cause I don't want to keep you guessing
   C          F          Am    G
But I always end up getting stuck stuck
               C  F
But I'm never giving up up

Am      G          C    F          Am
    Ohhoh Uhhohhou      Ohhoh Uhhohhou
G                  C    F
Ohhoh Uhhohhou

          Am                 G                    C  F
It's the way I feel when you're saying what you say to me
          Am                 G  F
Cause you wanna fill my mind 24/7 days a week
        Am            G
Cause if you got the time
C                          F
Stick around then you'll realize
         Am                 G               C  F
That it's worth every minute it take, just wait and see

F                         C
And I would scream to the world
```
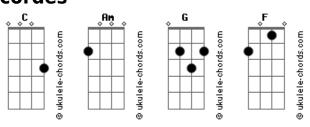

```
          G
They would see you're my girl

F                 Am     G
But I just keep getting stuck stuck
               C  F
But I'm never giving up up
            Am     G
In the middle of a perfect day
              C       F
I'm tripping over words to say
Am                 G
Cause I don't want to keep you guessing
   C          F          Am    G
But I always end up getting stuck stuck
               C  F
But I'm never giving up up

                    Am
I'm off of a chance just wasted
                    G
Tell me it's not two ladies
                    C
But even love is hard to keep me
          F
But I'm not insane

Am      G          C    F          Am
    Ohhoh Uhhohhou      Ohhoh Uhhohhou
G                  C    F
Ohhoh Uhhohhou

               Am     G
Keep getting stuck stuck
               C  F
But I'm never giving up up
            Am          G
In the middle of a perfect day
              C       F
I'm tripping over words to say
          Am                 G
Cause I don't want to keep you guessing
   C          F          Am    G
But I always end up getting stuck stuck
               C  F
But I'm never giving up up

Am   G    C    F
yeah yeh, yeh-eh
Am   G    C    F
yeah yeh, yeh-eh-eh

Cause I don't want to keep you guessing

But I always end up getting stuck stuck

But I'm never giving up up
```
