                                                            And I've been wondering if it's even still there?
Mount St. Helens is about to blow up
                                                            And the climate has been changing
And it's gonna be a fine, swell day
                                                            And soon it's gonna change more
