```
Tom: Bb
                                                                       Don't you, babe
 (com acordes na forma de C )
                                                                       I'm not your party favor
                               Afinação: D G C F A D Hey, leave
a message
                                                                        Look, now I know we could've done it better
Hey, call me back
                                                                       But we can't change the weather
When you get this
                                                                        And the weather's come and gone
Or when you've got a minute
                                                                       Books don't make sense if you read them backwards
We really need to talk
                                                                       You'll single out the wrong words
Wait, you know what
                                                                       Like you mishear all my songs
Maybe just forget it
                                                                        You hear stay and blah blah blah
Cause by the time you get this
Your number might be blocked
                                                                       You just want what you can't have
                                                                       No wait, I'll call the cops
Stay and blah blah blah
                                                                        If you don't stop I'll call your dad
You just want what you can't have
Am C
No wait, I'll call the cops
                                                                       And I hate to do this to you on your birthday
                                                                       \begin{array}{c} \mathsf{Am} & - \\ \mathsf{Happy} \ \mathsf{birthday} \ \mathsf{by} \ \mathsf{the} \ \mathsf{way} \\ \hline & \mathsf{G} \end{array}
If you don't stop I'll call your dad
                                                                        It's not you it's me and all that other bullshit
And I hate to do this to you on your birthday
                                                                        You know that's bullshit
