I'm all out of hope
                                                                -7--6-1
One more bad dream could bring a fall
                Dbm
                                                                -7--6-|
                                                                Al--7-7-7-7-7-7-7-7-7-7-7-5--5-5-5-5-4--5-5-5-4-
When I'm far from home
                                                                -5-5-5--4-|
Don't call me on the phone
                                                                E|----
To tell me you're alone
                                                                When you hear the music you make a dip
               Dbm
It's easy to deceive
                                                                Into someone else's pocket then make a slip.
                                                                Steal a car and go to Las Vegas oh, the gigolo pool.
It's easy to tease
                                                                Hanging out by the state line,
Turning holy water into wine
But hard to get release
                                                                Drinkin' it down, oh
Refrão:
                                                                I'm on a bus on a psychedelic trip
                                                                Reading murder books tryin' to stay hip.
Les yeux sans visage eyes without a face
                                                                I'm thinkin' of you you're out there so
                                                                Say your prayers.
Les yeux sans visage eyes without a face
                                                                Say your prayers.
                                                                Say your prayers.
Les yeux sans visage eyes without a face
                                                                Now I close my eyes
              Abm
Got no human grace your eyes without a face.
                                                                And I wonder why
( Dbm Abm B )
                                                                I don't despise
                                                                             Dbm
I spend so much time
                                                                Now all I can do
Believing all the lies
                                                                Is love what was once
                                                                              В
To keep the dream alive
                                                                So alive and new
               Dbm
Now it makes me sad
                                                                But it's gone from your eyes
                                                                I'd better realise
It makes me mad at truth
For loving what was you

Les yeux sans visage eyes without a face

Got no human grace your eyes without a face.
                                                                Such a human waste your eyes without a face
```

And now it's getting worse.
