Could you keep your head up when you're losing ground?
                      B
Could you keep your head up, ooh ooh ooh
                      Gb
Everything you once loved like your own blood comes crumbling
down
                      B
Could you keep your head up, ooh ooh ooh

   Abm          Db
Sometimes the tears we cry
      Gb                      B
Are more than any heart can take
  Abm          B
We hurt, just keep it inside
       Ebm                      B
Small wonder that it starts to break

Gb                      B
Many moons will light up the way
   Gb                      Ebm
As sure as night will follow day
   Db                      Abm
