

Bit Beat Bite Bright - Meet Too Soon

Tom: Gb

Before you start complaining about what you are waiting for
It was really never meant for you
It was really never made to make amends to your problems but
if you wanna be sure
Hope you could find a finer place to wait
In spite of what we've made before
It wasted us just a little bit more
To find a better way to say
That it is never how the game was told
And it was really really hard to scape
We forgot about the audience
But why would you say
That we don't need a good reason today, if we don't find you
in the audience,
Because these feeling really don't make sense
And won't find another way to be
If we don't leave you with the taste that it was all heaven
sent
And if you find it all over too late

You could rewind to the past

But you won't find us in any of that
Before you say that we are not at our best
Hope you just leave and write another instead
?cause we won't find another way to be
And we don't need a good reason today
If we don't find you in the audience
Do you have a clue, when it is up to you
?cause you were sitting with or without of that
And all these feelings are really going too fast
But you could never ignore the fact
You're only waiting for someone to regret
You really didn't think it's you
Have you got no clue
Waiting here for you is just like waiting for the flowers to
bloom
And if it's really what you thought
Then ready or not, we won't find ourselves another room
Then maybe we've just met too soon
