Black Ignation - You Made Me Grunge

```
                           tom:
                            A
          A              B
In the start you were my sky
A         B
But now, I prefer to die
A              B
You never cared about my feelings
A
But my hair is on my lips
B
And I can't stop thinking
A                    B
```
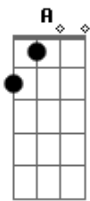

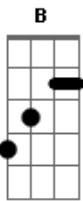

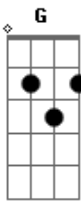

Acordes

```
When I'm sleeping on my bed tonight
A
And I remember of you
A
I try to save myself

                       B A  G
Leave the past behind
A               B A  G
Leave the past behind
A               B A  G
The past behind
A               B A  G
Leave the past behind
```
