Took her out for a date
But she ain't sittin' with me
500 in my pocket
And she can't be late
Don't love nothin' but the money
But it's free
You got to choose who you humiliate
Not on mine
But I know
You would do the same
If you ever run down
Try to put it on me, you're just insane
It's the power
Sittin' on a goldmine
