

# Black Lab - This Night

tom:

G

There are things I have done

There's a place I have gone

There's a beast and I let it run

Now it's running my way

There are things I regret

You can't forgive you can't forget

There's a gift that you sent

You sent it my way

So take this night

Wrap it around me like a sheet

I know I'm not forgiven

But I need a place to sleep

So take this night

Lay me down on the street

I know I'm not forgiven

But I hope that I'll be given some peace

There's a game that I played

There are rules I had to break

There's mistakes that I made but I made them my way

So take this night

And wrap it around me like a sheet

I know I'm not forgiven

But I need a place to sleep

So take this night

And lay me down on the street

I know I'm not forgiven

But I hope that I'll be given some peace

Some peace, some peace
