

# Blackfield - Over and over

tom:

**B**

When the day was done  
All our promises were broken  
And troubles stained the sun  
I stood there with no reason  
I was trying to untie  
My tangle soul was aching  
I saw you passing by  
Your beauty like my anger  
'Cause being alive means to die  
Over and over  
Like animals we're trying to survive  
'Cause being alive means to die  
Over and over  
I know at least I try  
And when the night was gone  
All my confidence was stolen

The path seem very long  
I've seen to have no reason  
Trying to unwind  
The knots tied up inside me  
I missed you in the fall  
Your silence like my anger  
'Cause being alive means to die  
Over and over  
Like animals we're trying to survive  
'Cause being alive means to die  
Over and over  
I know at least I try  
'Cause being alive means to die  
Over and over  
Like animals we're trying to survive  
'Cause being alive means to die  
Over and over  
I know at least I try
