

Blind Melon - For My Friend

Tom: E

(intro)

E I remember we used to sit out back and drink until the morning
light

E Always bummin' smokes and talking trash about the pleasure we
had

Ab Summers come and gone

Ab And the winter needs a song

E And I guess I keep movin' along with the ride that I have in
my head

E Ride that I have in my head

E Oh we used to drop some pills and sing til we lose our voice

E Chasing our dreams, we tried to put em' in a bag and save em'
for another day yeah

Ab Oh I feel, these memories have real

Ab Times you can't steal

Ab For the love that I have for my friends

A Love that I have for my friends

(E A7 B7)

E I just can pretend I need you

E You aint' no other love I never had

Ab Soon you will find my heart

Ab Its a beat that will never stop

A Its the loneliest time apart

(E)

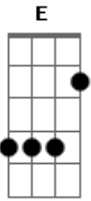

A Love that I have for my friends

A Love that I have for my friends

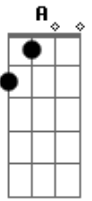

A Love that I have for my friends

A Love that I have for my friends
