[Primeira Parte]

Everything that we've tried

We'll keep waking up to that light

We'll see rising of a new tide

We are starting up a new life

When your head is hanging too low

When your heart is about to explode

You can make it anywhere go

There's no fear when you get here give up that ghost

[Instrumental]

[Segunda Parte]

B
When your dreams just seem like they're dead

Acordes

Like embalming deep in your head

When your job has gone to deep shit

If you've fallen off of that list

When you're clinching both of your fists

Like you aimed and then you just missed

Let the record show that you're fixed

Don't you give up now just get up and resist

[Refrão]

D
This time I won't be complacent

The dreams I gave up and wasted

A new high a new ride

And I'm on fire My hope shit ends here tonight

[Passagem]

[Terceira Parte]

Bm A
And after you had the time of your life

Flat-lined and lead toward the light

You'll despair the wreckage and find

No one gave a fuck that you died

[Refrão]

D
This time I won't be complacent

The dreams I gave up and wasted

A new high a new ride

And I'm on fire

My hope shit ends here tonight

[Ponte]

[Final]

D G
It's my high it's my mind

All made up it's alright

If I fall on some nails

If I win or set sail, I won't fail

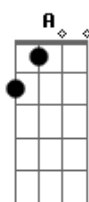

I won't fail
